

Motion Sensor Night Light

EL-N05

Instruction

Welcome to use EL-N05 PIR sensor night light!

Thank you for purchasing the Motion Sensor Light. We are committed to eliminating darkness by using the latest in light emitting diodes (LED's). LED's are the most efficient and durable light sources available. We are certain your Night Light will contribute to a safer environment and provide light where you need it at a very reasonable cost.

SPECIFICATION:

Light source: 9pcs White LED

Power source: 220-240V ~ 50/60Hz

Power: 1W LED

Function: Motion sensor on/off + light sensor

Sensing distance: 5m(24°C)max

Sensing angle: 120°

Ambient-light: <10Lux

Delaying time: 30 seconds

Size: 63*54*50mm

Weight: 72g

Operation:

1. Plug in the light to any AC outlet.
2. The LED night light will turn on automatically at dark and off at brightness.

Features:

- Stylish design
- Auto switching on when detecting movement
- Detection Area must be dark as the LED Night light with CDS Sensor smartly control the PIR sensor not to be activated during daytime or at bright area.
- Ideal for indoor decoration and uses in anywhere. At home, stairway, corridor, entrances, basement, kitchen, bathroom, bedroom.... etc.

Attentions:

- Do not immerse the night light into water or use in wet condition.
- Do not disassemble it by yourself.
- Beware of the electricity & electronics parts, it is not a toy. Please keep it out of reach of children.
